

Resources Safety and Health Queensland Industry Leaders' Briefing 2023

Mark Stone
Chief Executive Officer

Minister for Resources

The Hon. Scott Stewart MP

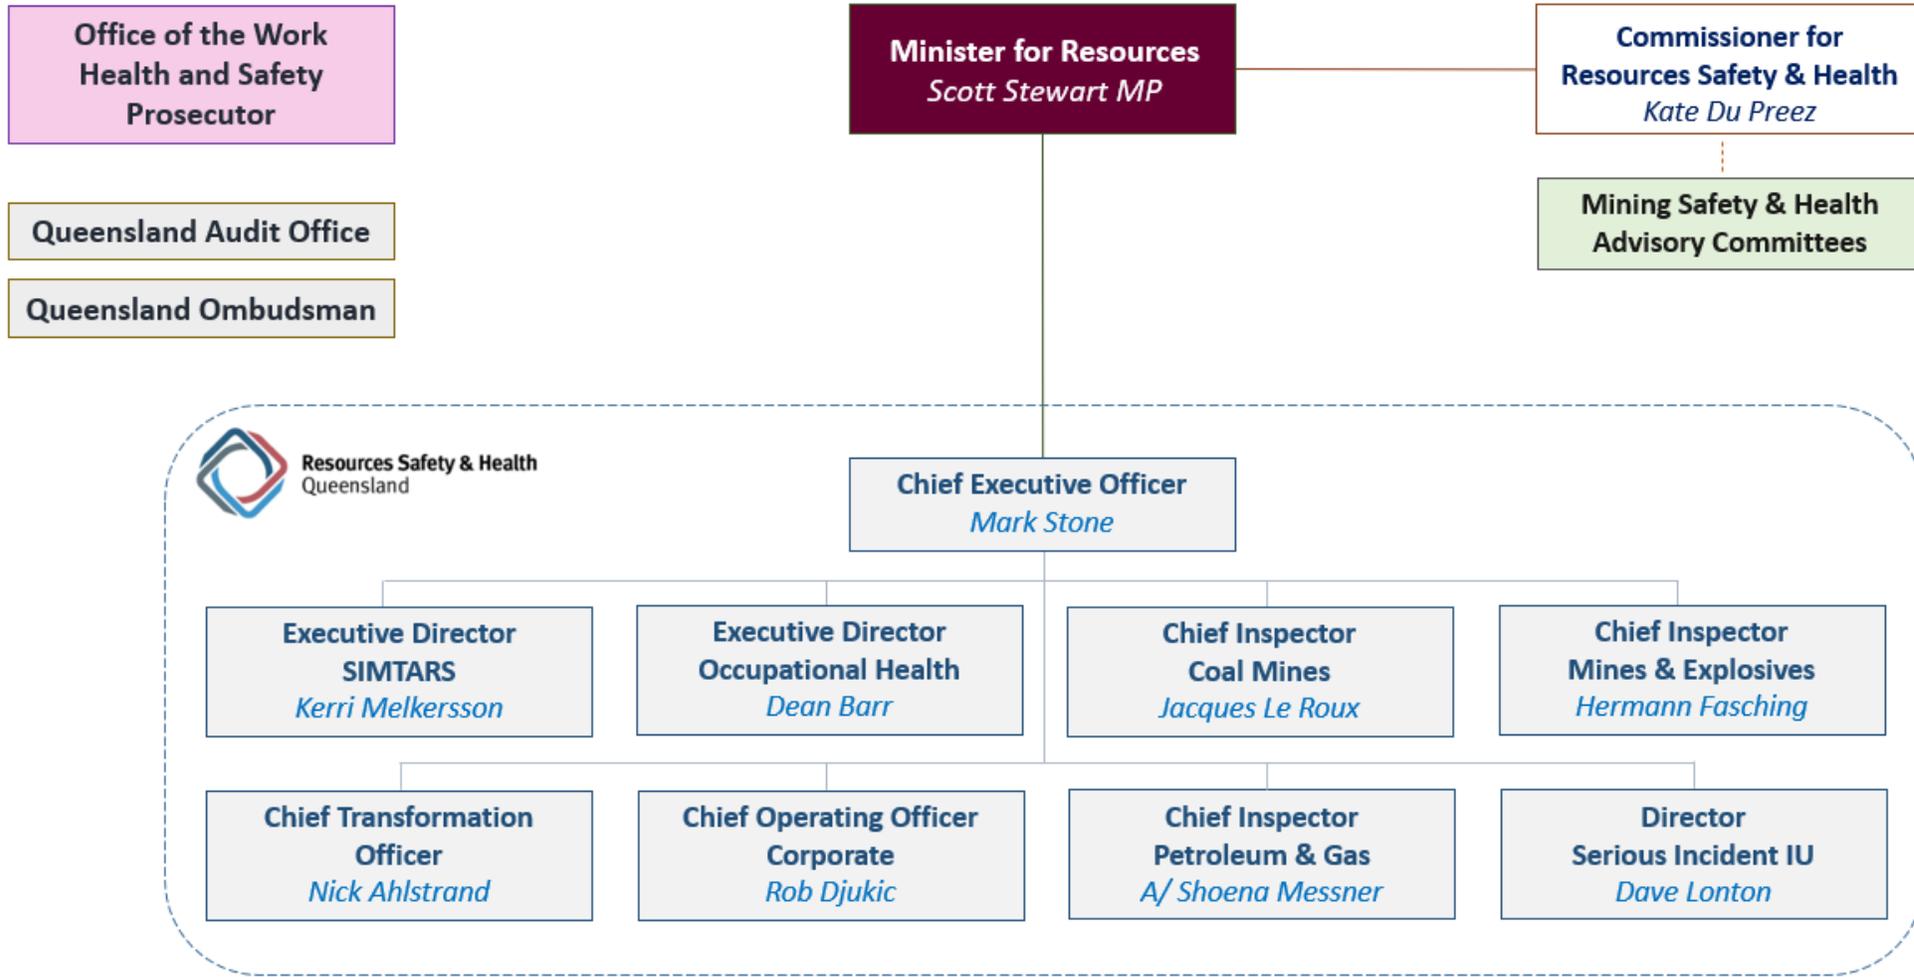

Resources Safety and Health Queensland Industry Leaders' Briefing 2023

Mark Stone
Chief Executive Officer

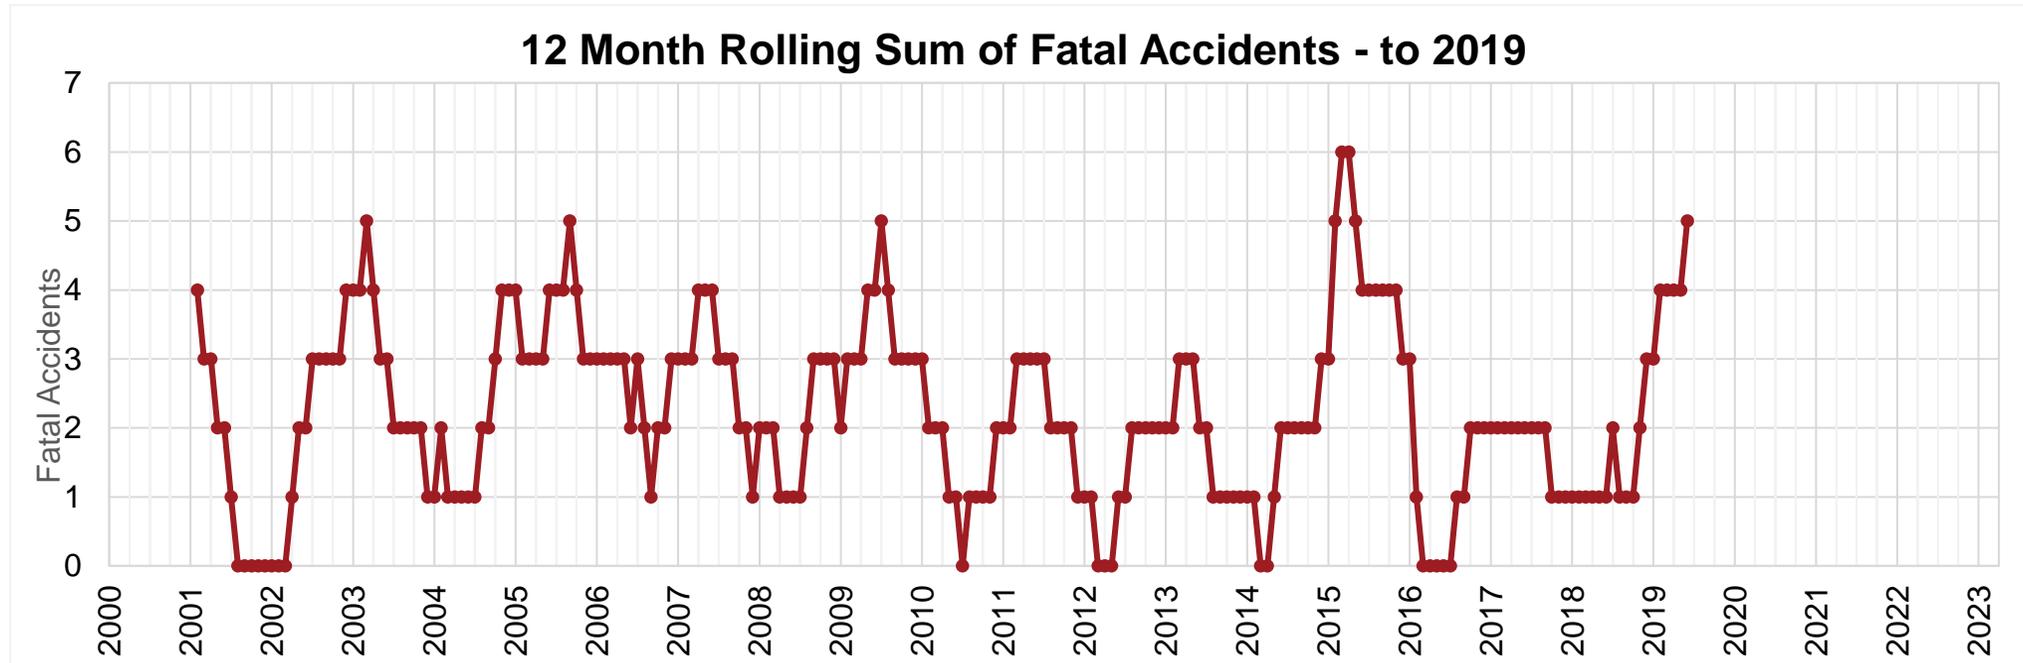

Our purpose

... regulate, educate and assist industry in meeting its obligation to protect the safety and health of workers and affected communities.

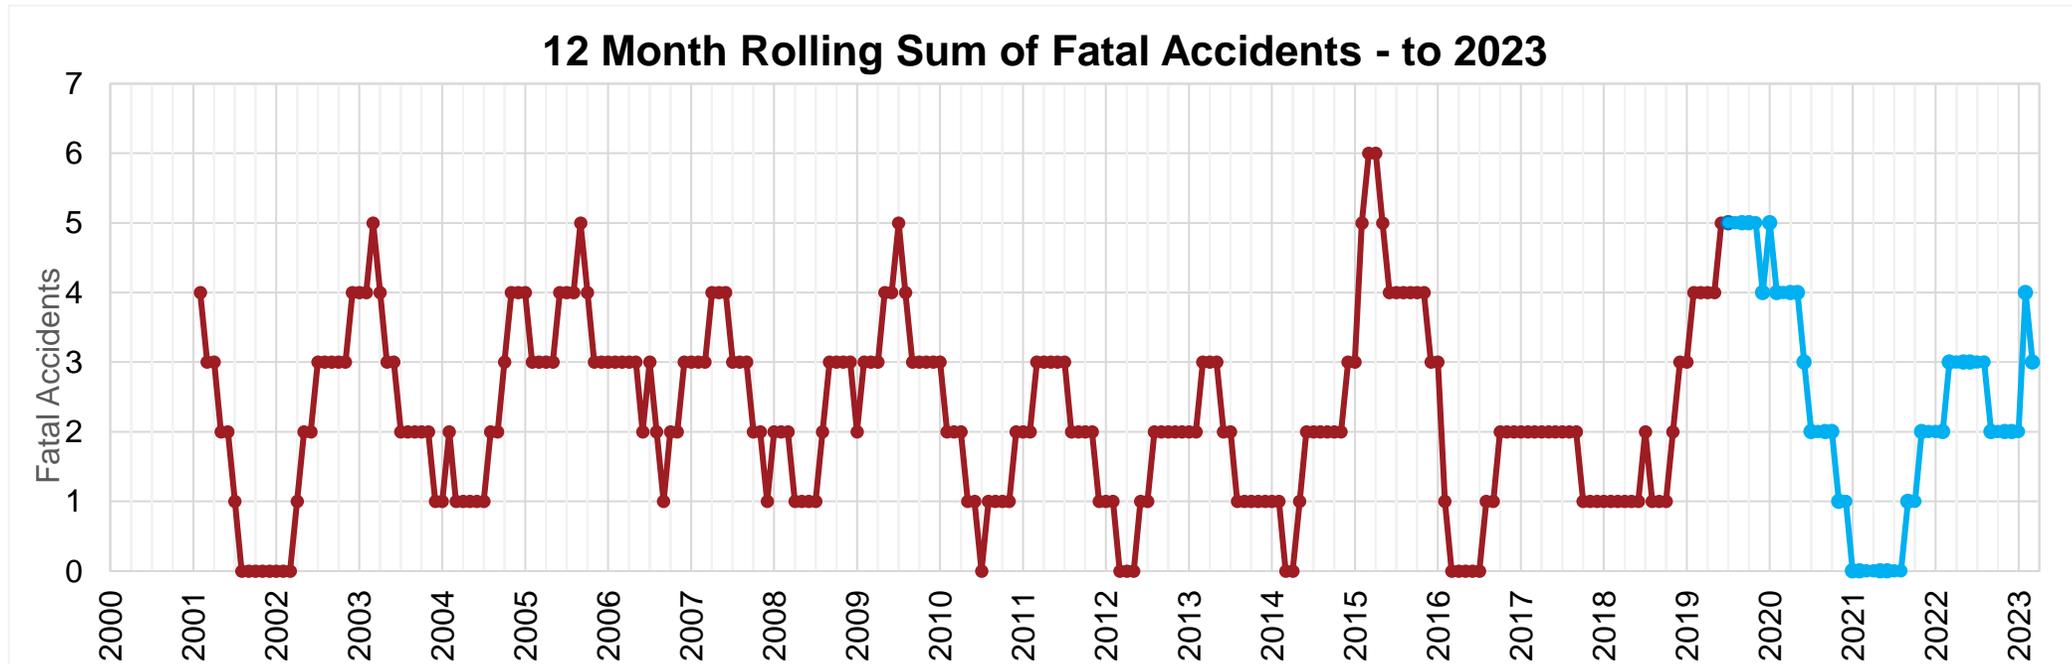

Mining & quarrying sector free from serious harm

Mining & quarrying sector free from serious harm

Review of all fatal accidents, 2000-2019

- **Industry should recognise it has a fatality cycle.**
- If it continues to take a *similar approach* to safety, using the same philosophies and methodologies adopted over the past 19½ years, then *similar outcomes* are expected.
 - regulator adopt SAFR & HPIFR performance measures
 - regulator develop a [much better] incident reporting system
 - industry focus on worker training for specific tasks
 - industry focus on appropriate worker supervision
 - industry focus on control effectiveness

Thank you

Mining & quarrying sector free from serious harm
