

# Import, export, trial and storage of explosives

This context diagram shows your reporting and notification obligations for a range of explosives activities.

**Note:**

- You must notify or report on a range of explosives related activities, including:
  - o before you import or export explosives
  - o when storing or interacting with stored explosives at explosive storage facilities and government magazines
  - o when there are changes to buildings and vehicles related to the storage or transport of explosives
  - o after conducting an explosive trial.
