

Petroleum and Gas Small Automotive Workshops Compliance Policy

It is acknowledged that for small businesses, with only a few mechanics, the requirement for a four gas analyser at each workshop and mobile workshop may not be required, to practically achieve compliance. The Inspectorate has reviewed its policy (as outlined below) in this regard, where it can be demonstrated that an analyser will be available for the relevant gas work undertaken at either workshop or mobile workshop.

Type of business	Scope of work	Normal Compliance requirement	Option for small businesses.
Fixed workshop only	Installing Removing Altering Repairing Certifying Servicing Testing	Full compliance with application for gas work authorisation (motor fuel) Approved form PGA728AV – version number 11 Attachment 2. Checklist	Not Available
Fix workshop with one mobile workshop (Up to three competent gas installer staff only)	Installing Removing Altering Repairing Certifying Servicing Testing	Full compliance with application for gas work authorisation (motor fuel) Attachment 2. Checklist and Attachment 3. Checklist	One analyser permitted subject to it being available for the relevant gas work undertaken at either the fixed or mobile workshops. The following requirements must be met: 1. An explanation and accompanying procedure of how and under what circumstances the arrangement would operate including the likely number of times this would occur in a 12 month period. 2. A signed commitment from the holder / applicant that the AS requirements for the analyser use are met and that the analyser will be available for use.
Mobile workshop only	Certifying Servicing Testing	Full compliance with application for gas work authorisation (motor fuel) Attachment 3. Equipment Checklist	Not Available
Mobile workshop with access to a fully approved fixed workshop to perform gas installation work	Installing Removing Altering Repairing Certifying Servicing Testing	Full compliance with application for gas work authorisation (motor fuel) Attachment 3. Checklist and Nominated workshop required to be fully compliant with Attachment 2. Checklist	Both the mobile and fixed workshops will be required to have an analyser if certifications are to be performed. The following requirements must be met: 1. An explanation and accompanying procedure of how and under what circumstances the arrangement would operate including the likely number of times this would occur in a 12 month period. 2. A signed commitment from the holder of the fixed workshop, agreeing to its use by the mobile applicant.
